

# Step 1: Framing

Activity name and location	Scenario planning time frame	Current situational assessment <i>Reality as of [date]</i>
Activity goal  <i>State your activity's overarching goal or purpose</i>	Prompting event  <i>Describe the actual change in your operating environment</i>	Name current situation  <i>Describe current operating context as it relates to your prompting event</i>
Planned Interventions  <i>List your primary interventions from the original design/plan</i>	Possible impact on Interventions  <i>Describe how the prompting event might affect these interventions</i>	Actual implementation and adjustments  <i>Describe how the interventions are currently being implemented</i>
